

Manufacturing Industry

A proven, effective approach to risk management and employee benefits.

Manufacturing businesses are often hit hard by the high cost of insurance. Partnering with a broker who knows your industry and is actively working to reduce your exposures can trim these costs. MMA works as an extension of your company to minimize the risk and maximize the health of your organization.

We have over 100 established regional and national carriers, as well as exclusive third party relationships to help manage your manufacturing industry risks. These connections allow us to customize a business insurance or benefits program that best fits your company's needs. organization's philosophy.

What we do

MMA's services are exclusively designed to drive down costs by minimizing risk and maximizing the health of your manufacturing company. Start adding the right mix of services to your insurance program. Our menu of services includes:

- Risk Assessment
- Market Selection
- Account Management
- Claims Advocacy
- Safety Consulting
- Certificate Tracking
- Surety Bond Placement
- Wellness Consulting
- Compliance Support

In addition

Aside from our variety of services, we also provide:

- Bi-lingual safety and risk consultants
- Expertise in managing manufacturing claims
- Risk management services which includes OSHA compliance and more
- Educational newsletters, webinars and white papers specific to the manufacturing industry
- Insight and strategic guidance on current legislation like the Affordable Care Act

MMA creates value by minimizing risk and maximizing health for over 6,000 businesses and individuals across the country through a suite of insurance solutions including business insurance, employee benefits, financial services, private insurance and surety.

Our long-term vision

We stay true to our passion of minimizing risk and maximizing health through our long-term vision of "Credibly calculating that our services create \$1 billion in value annually for our clients." All of our services, solutions and resources are modeled on this concept. So, when we employ various tactics to minimize risk and/or maximize health, we're creating real value that can be measured and reported back to you in the following ways:
